

**ROSE** MICRO SOLUTIONS

## SURGICAL BINOCULAR LOUPES

HIGH-QUALITY PERFORMANCE WITHOUT THE HIGH COST

Rose Micro Solutions is a proud family-owned business based in upstate New York, USA. Established by four brothers and named after their mother Rose, Rose Micro Solutions has over 35 years experience in the optical field. They take pride in the fact that they manufacture high-quality binocular loupes in the USA but are priced below their competition while offering a Lifetime Warranty. The goal of Rose Micro Solutions is to improve ergonomics in the workplace giving you a more comfortable experience.

### ADJUSTABLE BINOCULAR LOUPES

With Rose Safety Frame

Rose Micro Solutions Binocular Loupes are made in the USA, and now available in Australia. These surgical loupes feature high-quality coated optics in your choice of magnification and operating distance.

They have a simple, user-adjustable Inter-Pupillary Distance (IPD) control to suit every individual's requirements and waterproof optics allow for simple cleaning. They are lightweight, comfortable and durable and feature a flip-up mechanism to easily remove loupes from field of view.

### LED HEADLIGHT POWER PACK

Bright, white light where you need it, everytime

The small, lightweight design packs a punch with a powerful 180 lumen LED light source at 5,000°K.

Featuring 2 x rechargeable lithium-ion battery packs for hours of charge time and a portable protective case that can also store your loupes, you have everything you need to visualise your work area effectively, and protect and transport your equipment.
